

## **Grant Summary Report**

### **By the Monterey Bay Salmon and Trout Project**

**Report by Mathers Rowley, Director MBSTP**

**May 13, 2015**

**\$10,000 Award for:**

#### **Salmon Enhancement Program 2015**

This community based sustainable fishery project succeeded in acclimation and release of 120,000 Chinook Salmon smolts into Moss Landing Harbor during June of 2015. Indications are that these fish will contribute substantially to the salmon fishery of Monterey Bay.

The funds from the Newman Foundation were applied to the project as detailed below.

Net-pen storage fee	1,500
Sea Lion Exclosure Fencing for Deployed Pen	2,484
Silva Trucking (pen transport to and from Harbor)	532
Toucan Crane (off-loading & on-loading pen from truck)	1,110
Vibrio Vaccine	1,500
Net-pen Repairs	736
Lodging, Meals, & Transportation Costs for Volunteers Work at Mokelumne Hatchery & Moss Landing	1,635
Fish Food	915
<hr/>	
TOTAL	10,412

Additional expenses for tools, hardware, other supplies, transportation, and hospitality for volunteers were paid by MBSTP out of their general fund.

MBSTP is deeply grateful to the Nell Newman Foundation for helping to support this project! Thank you!
